INTERNATIONAL

or pressure.

Agility, maneuverability, balance, control, speed and power are the key quality of a superior skating ability.

Our unique approach focuses on the foundation of all skating skills awareness control and mastery of edges

In-line Skates Training

Rollerblade skates can help you achieve overall fitness because in-line skating is great low-impact aerobic exercise that strengthens legs, backs and stomach muscles. A study by Dr. Carl Foster of the U.S. Speed skating Team showed that in-line skating is more beneficial than running and cycling for those who want to burn calories and, at the same time develop muscle tone.

- etc

CHILDREN & EXERCISE

Exercise in children improves motor skills and prevents childhood obesity.

In-line skating sports helps children to be fit and prepare's them for an active adulthood.

When people practice, exercise on a regular basis during childhood and adolescence they are keener for exercise during adulthood living thus a longer healthier and happier life.

A Study by Dr. Carl foster of the US Speed skating team showed that inline skating is more beneficial than running and cycling for those whom want to burn calories and at the same time develop muscle tone.

RESPECT & BELONGING

Skate Dream Africa will provide a safe supportive and inspiring training environment where young skater is treated with respect and valued in an environment of inclusion and acceptance regardless of colour, tribe and origin.

This is inline with the traditional Africa believe ...

I am because we are since we are therefore I am
